

Philidas

Automotive and Industrial Fasteners

The 'Number One' All Metal Self Locking Nut

Benefits of Philidas Self Locking Nuts: -

- Most versatile Self-locking nut
- Suitable for use in high or low temperature with no affect on performance, even from chemicals
- Low prevailing torques & can be applied on multiple occasions
- Turret Nut can be assembled with the locking element leading onto a male thread

Philidas take great pride in the quality of their products which are specified throughout the Rail Industry and other OEM's for use in safety critical applications

Our nut ranges include: Industrial, Turret, Mark V, Flange, Comby, Aerospace, Weld and Specials
